Bobbink & Atkins

Rutherford New Jersey

## Business Terms and Suggestions

**IMPORTANT.** You will be entitled to wholesale prices only if your stationery shows that you are a member of the trade. Early orders guarantee proper selection and reservation of stock. Please indicate if we must ship by express or freight, and give the best route.

**PRICES** are net (unless otherwise arranged), subject to change without notice, and f.o.b. Rutherford, N. J. Packing is charged at cost, but we pack free if cash accompanies the order. We will supply 5 plants at the 10 rate, 25 at the 100 rate, and 250 at the 1000 rate. Orders calling for less than 5 of a kind (articles on which the price for one plant is not given) are subject to an advance in price of 25 per cent on the price for 10, to reimburse us for the extra labor involved in executing them. The catalogue cancels all sales conditions and prices quoted in previous catalogues and offers.

**TERMS.** Cash or satisfactory trade references must accompany all orders from purchasers unknown to us. All orders are subject to failure or shortage of crop and delays in delivery beyond our control. To customers whose responsibility is known to us, all bills are due net 60 days from date of shipment—6 per cent charged on overdue accounts.

**OUR RESPONSIBILITY.** We do not give any warranty, expressed or implied, nor do we guarantee plants to live. We will replace such material as proves to be not true to name, and it is agreed that not at any time shall we be held responsible for a greater amount than the goods were billed for.

We do not guarantee safe delivery—goods travel entirely at purchaser's risk. The ownership of all goods sold by us passes to the purchaser on delivery to the carrier. The issuing of a receipt by the carrier ends our responsibility.

Any claims for damage should be made promptly to the transportation company's agent at the point of delivery.

**COMPLAINTS** must be made in writing to our office within 5 days after receipt of the goods.

**HOW TO REACH OUR NURSERIES.** Our nurseries, consisting of 500 acres, are located within 8 miles of New York. Buses leave the Astor Hotel Bus Terminal every 15 minutes for Rutherford; there are also frequent trains on the Erie Railroad to Rutherford, where jitneys are available. Local trains stop at Carlton Hill, which station is only 5 minutes' walk from our office and nurseries.

**OUR SHIPPING FACILITIES.** We can ship by express and freight via Erie Railroad or via D. L. & W. R. R., both connecting with all other railroads and boat-lines leaving New York and Newark.

**AUTO TRUCK DELIVERY.** We deliver by truck within 75 miles of Rutherford; the charge made is according to distance and size of truck. Delivery by truck avoids packing charges and secures quick delivery within a short time after the plants are dug.

Trusting to be favored again with your patronage and promising our best efforts to give satisfaction, we are,

BOBBINK & ATKINS, Rutherford, N. J.

Heart Cypress Tubs .....	60

Subjects marked \* are suitable for rock-gardens

## Outstanding Specialties and Novelties

### Perennial and Rock-Plants

See page

* <b>AJUGA reptans multicoloris</b> .....	31
The bronze foliage and blue flowers make a desirable rock-plant.	
* <b>ALYSSUM saxatile compactum fl.-pl.</b> .....	31
A very scarce variety with fine double yellow flowers.	
<b>ANTHEMIS tinctoria, Perry's Variety</b> .....	31
A new Golden Marguerite with large, bright yellow flowers.	
<b>ARMERIA latifolia, Bees' Ruby</b> .....	32
New variety with brilliant pink flower-heads.	
<b>CIMICIFUGA racemosa simplex</b> .....	35
Beautiful, dense spikes of feathery white flowers.	
<b>GEUM, Fire Opal</b> .....	39
A novelty of great merit with glowing scarlet and deep orange flowers.	
<b>Orangeman</b> .....	39
Another desirable variety with single orange flowers.	
<b>HELENIUM Bigelowi aurantiacum</b> .....	40
A new, improved variety with fine golden yellow flowers.	
<b>HELIOPSIS scabra formosa</b> .....	40
Large, bright yellow flowers, fine for cutting.	
* <b>HEUCHERA, Cascade</b> .....	40
This variety has very attractive light pink flowers and fine foliage.	
* <b>Edge Hall</b> .....	41
A new variety with large flesh-pink bells.	
* <b>Rosmondi</b> .....	41
Very pleasing coral-pink flowers on stems 1 to 1½ feet tall.	
* <b>sanguinea, La Perle</b> .....	41
An outstanding new variety with dark red flowers.	
* <b>IBERIS, Snowflake</b> .....	41
A pure white Candytuft. Excellent rock-garden and border plant.	

Subjects marked \* are suitable for rock-gardens

# Outstanding Specialties and Novelties

## Perennial and Rock-Plants

See page

* <b>LITHOSPERMUM</b> , Heavenly Blue.....	46
An exceptionally fine rock-garden plant with sky-blue flowers.	
* <b>OMPHALODES verna</b> .....	47
An excellent variety with forget-me-not-like flowers.	
<b>PAPAVER orientale</b> , Joyce.....	48
A unique old-rose-colored Poppy. Very good grower.	
—, May Queen.....	48
An excellent new variety with double pink flowers, very distinct.	
—, <b>Tulipa</b> .....	48
Orange-pink, cup-shaped flowers borne on strong, stiff stems.	
<b>PHLOX decussata</b> .....	48
The following varieties are new and outstanding. They add desirable colors to the collection of Phlox.	
<b>Evangeline</b> .....	48
Rich salmon-pink. Very desirable.	
<b>Karl Foerster</b> .....	48
Color glowing dark orange-red. Large pips.	
<b>Leo Schlageter</b> .....	48
Brilliant scarlet-carmine flowers with dark centers.	
<b>Morgenrood</b> .....	48
A new shade of red. Very distinct.	
<b>Professor Went</b> .....	49
Most striking shade of brilliant amaranth.	
* <b>PHLOX Arendsi Hybrids</b> .....	49
This outstanding novelty is a hybrid between <i>P. canadensis</i> and <i>P. decussata</i> . If cut back during the summer, it is practically an everblooming Phlox and continues to bloom until fall.	
The following are three splendid novelties:	
* <b>Hanna</b> .....	49
Bright pink with very delicate purple sheen.	
* <b>Hilda</b> .....	49
White, suffused with lilac; pink eye.	
* <b>Louise</b> .....	49
Pale lilac with light carmine eye.	
<b>PHYSALIS Bunyardi</b> .....	50
Its numerous glowing red pods are very striking. Better than Alkekengi.	
* <b>POTENTILLA Hybrids</b> .....	50
The following new varieties are very fine for cutting. They are also attractive for the border:	
* <b>Carnival</b> .....	50
Double orange-red flowers, shaded yellow, resembling little double roses.	
* <b>Emily</b> .....	50
Double, clear yellow flowers. Very attractive.	
* <b>Fairy Queen</b> .....	50
A very charming variety with double, clear yellow flowers.	
* <b>Panorama</b> .....	50
Double, striped orange flowers.	
* <b>SEMPERVIVUM</b> .....	52
The following are most excellent for the rock-garden, each one very distinct:	
* <b>Brauni</b> .....	52
Dark green foliage, tipped brown. The flowers are red.	
* <b>La Harpei</b> .....	52
Dark grayish blue foliage, shaded red. Yellow flowers.	

## Outstanding Specialties and Novelties

### Perennial and Rock-Plants

	See page
<b>*Sempervivum Pomielli</b> . . . . .	52
The leaves have heavy brown-red tips. A charming variety.	
<b>SIDALCEA</b> . . . . .	52
An excellent decorative plant for the border. Its long flowering period makes it very desirable. The long, loosely arranged spikes are excellent for cutting and the colors are most attractive.	
<b>Monarch</b> . . . . .	52
Large, brilliant rosy crimson, semi-double flowers, borne on large spikes.	
<b>Nimmerdor</b> . . . . .	52
Saucer-shaped flowers of delicate salmon-rose.	
<b>Scarlet Beauty</b> . . . . .	52
Its deep amaranth-pink flower-spikes are produced in great abundance.	
<b>*SILENE maritima fl.-pl.</b> . . . . .	52
Creeping habit. Large, double white flowers resembling a dianthus.	
<b>TRITOMA, Royal Standard</b> . . . . .	53
Strong spikes of flowers having the lower half bright yellow, the upper part rich scarlet.	
<b>*TROLIUS asiaticus, Earliest of All</b> . . . . .	53
Handsome, dark green foliage. Light orange-yellow flowers.	
<b>*europaeus giganteus</b> . . . . .	53
Very fine, well-shaped buttercup-like flowers.

<i>cuspidata (capitata).</i>			Upright Japanese Yew

There are no better plants to make evergreen hedges than the Upright Japanese Yews, as they are perfectly hardy and practically immune to disease or insect pests or sunburn. Like the English Yew, they can be sheared closely if desired. We will be glad to quote special prices for large quantities for hedges.

## Azaleas and Rhododendrons

There are very few plants, if any, which play as important a role in planting gardens as the Azalea and the Rhododendron. We have lately devoted a great deal of our energy towards producing both, and we are now in a position to take care of your orders.

It is practically impossible to say which Azaleas are hardy and which are not. Varieties hardy in Washington may not be hardy in Boston; this also holds good for Azaleas which are called "Evergreen."

### Azaleas

#### Evergreen and Semi-Evergreen

The following varieties are known as Japanese Azaleas, and are extensively used for planting between shrubbery and broad-leaved evergreens.

		Each	Per 10	Per 100
<b>*AZALEA amœna.</b>	Low-growing; bushy. Rosy purple flowers.			
8-10 in. diam.	.....	\$1 00	\$8 50	\$75 00
10-12 in. "	.....	1 50	12 00	100 00

<b>*—superba.</b>	Dark rosy purple. Hose-in-hose type.			
10-12 in. diam.	.....	1 75	15 00	

<b>*Hinomayo.</b>	Clear, soft pink. Almost evergreen.			
8-10 in. diam.	.....	1 50	12 00	100 00
10-12 in. "	.....	1 75	15 00	125 00

<b>*Hinodegiri.</b>	Bright carmine. One of the hardiest.			
8-10 in. diam.	.....	1 65	13 50	125 00
10-12 in. "	.....	2 00	16 50	150 00
12-15 in. "	.....	2 50	20 00	

<b>*Kæmpferi.</b>	Fine red flowers. Absolutely hardy.			
10-12 in. high.	.....	1 50	12 50	100 00

<b>*Kurume.</b>	Very useful for planting between broad-leaved evergreens, in borders, and rock-gardens. The flowers vary in color from pure white to brilliant red. As long as the plants are young, they require a mulch and slight protection in winter.			
<b>*—Bouquet Rose.</b>	Dainty, rose-pink flowers, deeper center.			

8-10 in. diam.	.....	\$1 50	\$12 00	
10-12 in. "	.....	1 75	15 00	

<b>*—Cherry Blossom.</b>	Light pink, white toward the center.			
8-10 in. diam.	.....	1 50	12 00	

<b>*—Christmas Cheer.</b>	Brilliant "Christmas" red. Hose-in-hose.			
8-10 in. diam.	.....	1 75	15 00	\$125 00

<b>*—Coral Bells.</b>	Coral-pink. Very free. Hose-in-hose.			
6-8 in. diam.	.....	1 00	8 50	75 00

<b>*—Hoo.</b>	White, shaded lilac; brown blotches.			
8-10 in. diam.	.....	1 50	12 00	
10-12 in. "	.....	1 75	15 00	

<b>*—Morning Glow.</b>	Bright rose-pink, darker toward center.			
8-10 in. diam.	.....	1 50	12 00	100 00

<b>*—Pink Pearl.</b>	Salmon-rose. Hose-in-hose. Large trusses.			
8-10 in. diam.	.....	1 50	12 00	100 00
10-12 in. "	.....	1 75	15 00	125 00

	Each	Per 10	Per 100
<b>*Azalea Kurume, Salmon Beauty.</b>			
Beautiful salmon-pink; large. Hose-in-hose.			
8-10 in. diam. ....	\$1 75	\$15 00	
10-12 in. diam. ....	2 25	17 50	\$150 00
<b>*—Snow.</b>			
Pure white; large. Very free.			
<b>*ledifolia alba (indica alba).</b>			
Pure white flowers. Very free flowering.			
12-15 in. diam. ....	2 25	17 50	150 00
15-18 in. " ....	2 50	20 00	175 00
<b>*macrantha.</b>			
Large, single, salmon-red flowers.			
8-10 in. diam. ....	1 00	8 50	75 00
<b>*—flore-pleno.</b>			
Double, salmon-red blooms in June.			
8-10 in. diam. ....	1 25	10 00	85 00
<b>*Maxwelli.</b>			
Carmine-red; large, single flowers.			
Hardy.			
10-12 in. diam. ....	1 75	15 00	

We offer the following Evergreen Azaleas for lining out. These are well-rooted young plants from flats. They have been carried through the winter on the shelves near the glass of cool greenhouses. This treatment produces a sturdy, compact growth. The plants having greater root-freedom in flats, they are much superior to cuttings from 2-inch pots.

Per 100

<b>Amœna.</b>	Rosy purple. ....	\$15 00
<b>Benigiri.</b>	Bright carmine. ....	20 00
<b>Hinodegiri.</b>	Carmine. ....	20 00
<b>Kurume, Christmas Cheer.</b>	Red. Hose-in-hose type. ....	25 00
—, <b>Coral Bells.</b>	Coral-pink. Hose-in-hose type. ....	25 00

<b>Macrantha.</b>	Salmon-red. Very late. ....	25 00
—, <b>flore-pleno.</b>	Double. ....	25 00
<b>Maxwelli.</b>	Carmine-red. ....	25 00
<b>Yaye-giri.</b>	Salmon-red; semi-double. ....	20 00

We have a large collection of Kurume Azaleas and will be glad to quote prices on sizes and varieties not noted in this list.

For young plants of Hexe and Lorraine, please see page 51.

### Deciduous Azaleas

	Each	Per 10	Per 100
<b>AZALEA altaclarens.</b>			Highclere Azalea
Very large yellow flowers.			
12-15 in. high. ....	\$2 50	\$22 50	
15-18 in. " ....	3 00	27 50	
<b>mollis.</b>			Chinese Azalea
Very large flowers ranging from yellow to scarlet. We can supply mixed colors only.			
12-15 in. high. ....	1 75	15 00	\$125 00
15-18 in. " ....	2 00	17 50	150 00
2-2½ ft. by 20-24 in. diam., specimens.	6 00		
<b>mucronulata.</b>			
The earliest of all Azaleas. Flowers lavender, shaded soft pink.			
18-24 in. high. ....	2 50	22 50	

## Rhododendrons

### Hybrid Named Varieties.

We have considerable quantities of Hybrid Rhododendrons and will be glad to send a list of varieties and quantities available if you ask for same.

Every winter we graft thousands of Hybrid Rhododendrons and sell part of them for lining out. We supply these grafts out of 3½-inch pots, and will send a list of varieties and quantities available on request. \$75 per 100.

### Hybrid Seedlings.

The plants we offer are fine, bushy specimens. They are not labeled as to color.

<b>HYDRANGEA opuloides acuminata.</b>			
This Hydrangea belongs to the "Hortensis" type, but contrary to many of that type, Acuminata is hardy in the vicinity of New York. The foliage is a beautiful, glossy green, shaded purple in fall and is lancet-shaped. The flowers are very remarkable, resembling those of <i>Viburnum Opulus</i> , the European Cranberry Bush, in that they have a center of undeveloped petals surrounded by a circle of open petals. The flowers are red and blue.	Each	Per 10	Per 100
We offer strong field-grown plants...	\$2 00

Standard or Tree Roses in our Nursery

## Field-Grown Roses

We produce and sell, every year, over half a million Roses in hundreds of varieties. Our connections with American and European hybridizers enable us to offer the most up-to-date collection, but we catalogue only such varieties as have proved to be meritorious.

We devote more than 60 acres to the cultivation of Roses and their understocks, the Japanese Multiflora, which we have found to be the best. Our soil and climate develop fine, well-ripened Roses producing splendid roots.

While we advise fall planting, we have the most carefully devised storage facilities, enabling us to supply Roses in excellent condition in spring.

To enable our customers to plant Roses all summer, we pot a considerable quantity of field-grown plants in early spring. These can be moved at any time. We make a charge of 25 cents each above the prices quoted in the wholesale list. If interested, we will send you a list of available varieties in spring.

**We will supply 5 plants at the 10 rate, 25 at the 100 rate. Orders calling for less than 5 of a kind are subject to an advance in price of 25 per cent on the price for 10, to reimburse us for the extra labor involved in executing them.**

Our retail catalogue lists and describes more than 600 varieties and species of Roses. You may have a copy for the asking.

## New Climbing Roses

Per 10 Per 100

CHAPLIN'S PINK CLIMBER. HW. Brilliant pure pink, it retains this color from bud to full-blown flower and produces substantial, broad trusses. This variety is vigorous and extremely free blooming. Good, strong plants.....	\$6 50	\$60 00
--	--------	---------

MME. GREGOIRE STAECHELIN. Cl.HP. Long-pointed buds; large, delicate pink flowers, the curled petals crimson outside. Foliage is dark green and very resistant to disease. The pear-shaped fruit is borne on strong stems. It is an abundant bloomer. Good, strong plants.....	5 50	50 00
---	------	-------

THELMA. HW. Flowers pale flesh-pink—a charming rare color. The yellow stamens increase the loveliness of the flower which remains in full beauty nearly two weeks. It is a sturdy, healthy grower and very free bloomer. Good, strong plants.....	6 50	60 00
---	------	-------

## Standard or Tree Roses

These should be used in every garden to relieve the appearance of flatness and because they permit the use of a greater number of varieties where space is limited.

3 to 3 1/2-ft. stems at \$1.50 each

We can supply the varieties marked with an asterisk (\*) with extra-heavy crowns at \$2.50 each

Betty	*Mabel Morse
Charles K. Douglas	*Margaret McGredy
*Cuba	*Miss Cynthia Forde
*Feu Joseph Looymans	Mme. Butterfly
Frau Karl Druschki	Mme. Léon Pain
*General MacArthur	*Modesty
*Golden Emblem	Ophelia

*Hadley	*Radiance
*Hoosier Beauty	*Red Radiance
*Hortulanus Budde	*Rev. F. Page-Roberts
*J. Otto Thilow	*Rose Marie
Kaiserin Auguste Viktoria	*Sensation
Killarney Queen	Souv. de Claudius Pernet
Lady Ursula	*The Chatillon Rose
Los Angeles	*The Queen Alexandra Rose
*Louise Catherine Breslau	*Ville de Paris

## Half-Standard Roses

The following varieties are \$1.25 each

Gruss an Aachen

Miss Edith Cavell

## Hardy Herbaceous Perennials

The plants we supply are strong, field-grown clumps or strong divisions; we also grow many perennials in pots. The pot-grown plants can be shipped late, long after it is no more possible to ship field-grown plants. By using this material, our customers can plant a herbaceous border in midsummer.

Our beautifully illustrated Retail Catalogue, with full descriptions, includes many more varieties than this Wholesale List. We will be glad to send you a copy and quote our best wholesale prices.

We will supply 5 plants at the 10 rate, 25 at the 100 rate, and 250 at the 1000 rate. Orders calling for less than 5 of a kind are subject to an advance in price of 25 per cent to reimburse us for the extra labor involved in executing them.

Varieties marked:

\* are suitable for rock-gardens.

1 can be supplied pot-grown only.

2 can be supplied pot-grown and field-grown.

Varieties unmarked can be supplied field-grown only.

Iris

In the descriptions of the Iris, S. stands for Standards or upper petals; F. for Falls or lower petals.

The blooming period ranges from May to June. The figures in the first column indicate the rating accorded such variety by the American Iris Society, on the basis of 10 for perfection.

<i>IRIS germanica (Fleur-de-lis).</i>	Rating	Per 10	Per 100

<b>Named Varieties of German Iris, our selection....</b>			
	\$30 per 1000..	60	4 00

**Iris, Intermediate, New Hybrids.**

These Iris are crosses between *Iris germanica* and *I. pumila*. They flower earlier than the German Iris. The plants are dwarf, the flower-stem being only 18 inches high. They are hardy, vigorous growers and very free flowering.

**Blue Boy.** 30 in. May, June.

10-12 in. plants from 4-in. pots.....	6 50	55 00
12-15 in. plants from 5-in. pots.....	12 50	100 00

**CAMELLIA japonica.**

This beautiful plant, many years ago the outstanding plant for cool greenhouses, has come back into favor. This they fully deserve because of the beauty of their regularly shaped flowers, their fine, varied, clear colors, and their splendid foliage. Formerly they were imported from Germany and Belgium. We have succeeded in growing them equally as well as the plants formerly imported.

*Alba plena*. Double. White.*Auguste Delfosse*. Double. Red.*Comte de Comer*. Double. White.*Cygne*. Double. White.*John G. Drayton*. Semi-double. White.*Marchioness of Exeter*. Double. Pink.*Nobilissima*. Early. Double. White.*Rev. John Bennett*. Semi-double. Pink.*Sarah C. Hastie*. Double. Pink.*William S. Hastie*. Double. Deep red.

All the above, strong, well-branched 18 to 24-in. plants from 5- and 6-in. pots, \$3.50 each

Prices on application

## Bobbink & Atkins Heart Cypress Tubs

"Heart Cypress" has proved to be decidedly superior to all other woods for making tubs; it does not warp, shrink, or swell.

No tubs leave our shops that have not been thoroughly made. They are serviceable for practically every situation.

For more decorative purposes, we have designed various other kinds in addition to the Round Tub. Among these the most popular are the Square Tubs Nos. 1, 2, and 12, which are illustrated here. The prices are as low as consistent with the excellent quality of tub we turn out.

If you need a special design, we can make it, and will be glad to quote you prices, if you will furnish us with a rough sketch showing the desired shape.

Octagonal Tub

Made only in sizes from 15 to 24 inches diameter inside.

Prices on application
